

Q1 Landscape professionals in Scotland face different challenges and opportunities from other nations and regions in the UK because of Scotland's unique legislative, political and natural environment. What do you think those main challenges and opportunities are? (you can give up to five responses below)

Answered: 62 Skipped: 13

ANSWER CHOICES	RESPONSES	
Response 1	98.39%	61
Response 2	95.16%	59
Response 3	83.87%	52
Response 4	56.45%	35
Response 5	29.03%	18

#	RESPONSE 1	DATE
1	Challenge - to meet and accommodate ever growing number of tourists visiting fragile landscapes.	8/31/2017 10:01 AM
2	climate change	8/31/2017 7:00 AM
3	Determining the landscape professionals role in these arenas	8/30/2017 9:38 PM
4	To integrate high quality landscape into urban areas	8/30/2017 6:25 PM
5	loss of public sector jobs esp. in local government	8/30/2017 5:20 PM
6	Energy. The FiT structure has historically lead to a mish-mash of turbine types and densities in various local councils. A more collaborative approach to aid decisions at a national (UK), national (devolved regions) and local level could be stronger.	8/30/2017 4:57 PM
7	Scotland is an exciting dynamic environment in which to practice	8/30/2017 4:25 PM
8	Geopolitical and global tension	8/30/2017 3:37 PM
9	Impossible to compare when only practised in Scotland	8/30/2017 3:25 PM
10	Economic problems- e.g. less money for house building or other built development.	8/30/2017 3:19 PM
11	Challenge : The homogeneity of approach that comes from a small nation with strong government control from the centre	8/30/2017 3:06 PM
12	To provide a Scottish approach using local knowledge and appropriate advice.	8/30/2017 2:51 PM
13	Reconciling renewable energy strategy with landscape aesthetics	8/30/2017 2:34 PM
14	Lack of UK gov support	8/30/2017 2:31 PM
15	planning policies	8/30/2017 2:29 PM
16	Credibility - with a high proportion of the SLI working with the windfarm industry the LIS is not considered independent on climate change issues	8/30/2017 12:02 PM
17	Lack of understanding of landscape means!	8/30/2017 11:55 AM
18	Devolved government means that many scottish issues are administered in Scotland.	8/30/2017 10:24 AM
19	Uniquely diverse physiographic structure	8/30/2017 10:00 AM
20	The restricted size of the economy and available work.	8/30/2017 9:12 AM
21	geography - some remote sparsely populated areas	8/30/2017 9:04 AM

Landscape Institute Scotland

22	Balancing energy needs, landscape sensitivity and visual amenity	8/30/2017 8:57 AM
23	Budgets/ Funding (also EU funding)	8/30/2017 12:08 AM
24	Opportunities associated with wind and hydroelectric renewable energy schemes no hindered by change in subsidies	8/29/2017 11:03 PM
25	Creating a culture that Knows what good quality design is, values it and understands how it can be force for social equality	8/29/2017 8:12 PM
26	superb resource of wild and relatively unspoilt land	8/29/2017 7:10 PM
27	Climate change	8/29/2017 6:22 PM
28	Unique landscape	8/29/2017 6:00 PM
29	Developing a cohesive and national approach to de-carbonising the Scottish economy	8/29/2017 5:11 PM
30	The biggest challenge is a general reluctance for change.	8/29/2017 4:28 PM
31	Being responsive to change	8/29/2017 3:50 PM
32	A weak approach to the design of new housing	8/29/2017 3:25 PM
33	balancing protection of sensitive and unique landscapes with a desire to increase the access and enjoyment for people to them and to contribute to our economy	8/29/2017 3:17 PM
34	developers designing structures/infrastructure that is sympathetic to the local landscape	8/29/2017 2:53 PM
35	Impact of wind power on the landscape	8/27/2017 12:03 PM
36	Opportunity: high value (monetary and social, health etc.) of landscape to Scotland and its people.	8/25/2017 1:31 PM
37	diminishing resources and budgets withinthe public sector for environmental projects and for the management of landscapes generally	8/25/2017 12:21 PM
38	Retaining and enhancing the distinctiveness of our natural environment	8/24/2017 10:27 AM
39	local authority , lack of innovation	8/23/2017 9:30 AM
40	Preservation of the natural environment	8/22/2017 10:39 PM
41	Controlling development whilst allowing for housing demand	8/22/2017 5:54 PM
42	To demonstrate where we can bring value to a project in its early stages	8/22/2017 4:47 PM
43	Promoting the profession	8/22/2017 4:45 PM
44	Balancing the demands of suburban sprawl in the central belt versas the loss of population in the north and south	8/22/2017 3:46 PM
45	Poor quality private sector housing	8/22/2017 2:37 PM
46	Highly protected landscapes	8/22/2017 2:32 PM
47	population distribution/density and wilder character (challenge and opportunity)	8/22/2017 2:07 PM
48	The importance of the tourism and therefore general amenity / environmental quality of both the urban and rural landscape	8/22/2017 1:54 PM
49	Proximity to an abundance of natural resources attracts investment but puts pressure on the natural environment and those who look after it	8/22/2017 1:47 PM
50	Isolation due to differences in terminology, legislation etc..	8/22/2017 1:32 PM
51	no economic desire to use and implement landsape services where they are most needed - masterplanning of large greenfield sites, mitigation of industrial development in scenic areas, high quality urban realm	8/22/2017 1:26 PM
52	Getting qualified staff	8/22/2017 1:17 PM
53	Legislation - particularly the Wild Land which has effectively sterilied 40 percent of the land in the Highland region of Scotland	8/22/2017 1:12 PM
54	a	8/22/2017 1:03 PM
55	pressure from the drive to develop tourist attractions	8/22/2017 11:53 AM

Landscape Institute Scotland

56	Under funding	8/22/2017 11:40 AM
57	Planning regime	8/22/2017 8:30 AM
58	Natural beauty of Scotland	8/22/2017 8:17 AM
59	Image-detached from centre of Europe	8/21/2017 10:03 PM
60	Cohesive environmental legislation and guidance between Westminster and Holyrood, particularly post Brexit	8/21/2017 5:39 PM
61	Tourism is our number 1 industry which may conflict with other priorities	8/21/2017 5:25 PM
#	RESPONSE 2	DATE
1	Opportunity - to demonstrate best practice in meeting the above demand.	8/31/2017 10:01 AM
2	pressure for development	8/31/2017 7:00 AM
3	Conveying our philosophy/ skills expertise	8/30/2017 9:38 PM
4	To understand the complex inter relationships of ecosystems, their services and their value to quality of life	8/30/2017 6:25 PM
5	lack of influence on strategic landscape issues	8/30/2017 5:20 PM
6	Energy. Fracking - major land-use issue which affects all devolved regions of the UK.	8/30/2017 4:57 PM
7	This is the area I practice in so I do not see it as being more challenging than the wider UK	8/30/2017 4:25 PM
8	Brexit/ Scottish Independence	8/30/2017 3:37 PM
9	Many Councils do not employ landscape architects, landscape managers or landscape planners.	8/30/2017 3:19 PM
10	Opportunity : A small nation with relatively quick and responsive parliament means that policy can evolve quickly	8/30/2017 3:06 PM
11	To listen to the aspirations of the client and provide a sustainable / realistic justification for any design decisions.	8/30/2017 2:51 PM
12	Absorbing increasing tourism into the fragile landscape without destroying the very elements that make it attractive	8/30/2017 2:34 PM
13	Brexit	8/30/2017 2:31 PM
14	economy	8/30/2017 2:29 PM
15	professional skills, there are too few young landscape professionals looking to work in Landscape planning - the UK universities but especially Edinburgh does not equip students with a sufficient knowledge of UK planning and landscape	8/30/2017 12:02 PM
16	need a landscape /place first policy	8/30/2017 11:55 AM
17	The geography of Scotland is different from the UK as a whole with far higher proportion of upland and a very patchy population distribution with many remote areas.	8/30/2017 10:24 AM
18	Under represented in the political	8/30/2017 10:00 AM
19	The complicated procurement route for getting work.	8/30/2017 9:12 AM
20	wild land -high biodiversity and landscape value	8/30/2017 9:04 AM
21	Funding for quality public realm	8/30/2017 8:57 AM
22	Other professionals and clients often don't understand what a landscape architect is and the skills we can bring to the project	8/30/2017 12:08 AM
23	Opportunities for promoting good service design which unlike in the rest of UK are mandatory in Scotland for all new developments	8/29/2017 11:03 PM
24	Designing and implementing great public space and green infrastructure across urban areas, especially where most people live and work. AND Maintaining existing and new public spaces at a high quality in the face of local authority and other public sector cuts	8/29/2017 8:12 PM
25	pressures on wild land because developers always think there's so much more it doesn't matter	8/29/2017 7:10 PM
26	Pollinator decline	8/29/2017 6:22 PM

Landscape Institute Scotland

27	Brexit as a challenge to funding & policy, e.g. renewable energy policy	8/29/2017 6:00 PM
28	Maximising the opportunity presented to capitalise, but not canibalise, Scotlands Natural resources: clean water, clean air, wind, tide	8/29/2017 5:11 PM
29	Design by committee doesn't necessarily achieve the best results.	8/29/2017 4:28 PM
30	Design quality needs a higher profile	8/29/2017 3:50 PM
31	A market overly dominated by volume house builders	8/29/2017 3:25 PM
32	in some ways we are more constrained than England by having SuDS legislation in place - we end up being stymied by Engineer dominated consents via Scottish Water and or RCC that doesn't allow scope for better integration with landscape	8/29/2017 3:17 PM
33	planners not having 'teeth' to ensure 'quality' landscape design is carried out	8/29/2017 2:53 PM
34	Also: decline in home grown talent (not a Scotland only problem)	8/27/2017 12:03 PM
35	Opportunity: extant policy basis for high quality design, placemaking process etc.	8/25/2017 1:31 PM
36	Relatively little private sector development leading to reduced market opportunities , and to lower thresholds for planning and design from authorities wanting to encourage development without enforcing appropriate environmental & design standards	8/25/2017 12:21 PM
37	Contributing to the global challenge of halting man-made climate change	8/24/2017 10:27 AM
38	political inability to change	8/23/2017 9:30 AM
39	Support from Scottish Government to Brownfield Development	8/22/2017 5:54 PM
40	To demonstrate the economic and social benefits of what we do	8/22/2017 4:47 PM
41	Securing work	8/22/2017 4:45 PM
42	Larger and cumulative wind farm development	8/22/2017 2:37 PM
43	Challenging local authorities with NIMBY attitudes	8/22/2017 2:32 PM
44	rural development (determining appropriate development vs. protection, esp. balancing tourism with other land uses)	8/22/2017 2:07 PM
45	Stark contrast in population density.	8/22/2017 1:54 PM
46	High percentage of rural and designated land which can increase undue pressure on undesignated areas	8/22/2017 1:47 PM
47	Nationalism and devolution	8/22/2017 1:32 PM
48	very little or no support from local government in upholding landscape and green infrastructure standards and policies against other priorities and agendas	8/22/2017 1:26 PM
49	Getting qualified staff	8/22/2017 1:17 PM
50	Policy change to renewable energy	8/22/2017 1:12 PM
51	b	8/22/2017 1:03 PM
52	d	8/22/2017 12:28 PM
53	relaxation of planning restrictions on development	8/22/2017 11:53 AM
54	Not being recognised as an important factor/industry at the outset of every project and see as a 'tag' on element at the end.	8/22/2017 11:40 AM
55	Brexit and associated commercial pressures	8/22/2017 8:30 AM
56	Own parliament	8/22/2017 8:17 AM
57	Focus on local community - tangible agent for change	8/21/2017 10:03 PM
58	Scotland's unique landscape that forms an integral part of its character and a vital part of its economy	8/21/2017 5:39 PM
59	Strong cultural identity with global appeal; the romantic view of Scotland is a strength and an opportunity	8/21/2017 5:25 PM
#	RESPONSE 3	DATE

Landscape Institute Scotland

1	Challenge - to ensure Scotland continues to evolve into a modern nation , meeting the needs of the population and tourists alike.	8/31/2017 10:01 AM
2	lack of woodland management	8/31/2017 7:00 AM
3	Landscapes role in creating places	8/30/2017 9:38 PM
4	To take a landscape scale view of natural, built and human environments and their contribution to identity and place	8/30/2017 6:25 PM
5	low salaries	8/30/2017 5:20 PM
6	Infrastructure in relation to tourism and industry/business growth. Correct decisions by Scottish Gov on spending in regards to Scottish growth within the UK and wider world. Ecotourism, healthy retirement and active living. Promotion and protection of valued landscapes as a continued resource.	8/30/2017 4:57 PM
7	In some ways Designing Streets and legislation related to SUDS design makes us more progressive than the wider UK	8/30/2017 4:25 PM
8	Reduction in investment due to the above	8/30/2017 3:37 PM
9	Challenge : Low population densities mean that resourcing of placemaking and especially of long-term management to a high standard is often inadequate	8/30/2017 3:06 PM
10	To avoid negative viewpoints on beneficial development and provide an impartial view.	8/30/2017 2:51 PM
11	Funding improvements to the built environment - particularly outside the main cities	8/30/2017 2:34 PM
12	Possible Indy ref 2	8/30/2017 2:31 PM
13	being distant from the central LI	8/30/2017 2:29 PM
14	Tourist related activities are a major element of the Scottish economy and are all landscape related to some degree.	8/30/2017 10:24 AM
15	Major problem in getting the message across as landscape is complex and subtle	8/30/2017 10:00 AM
16	Increased competition for work from around UK	8/30/2017 9:12 AM
17	challenging climate in some areas for variety of planting / wear of hard landscaping	8/30/2017 9:04 AM
18	Lack of understanding and value of good quality build environment by other professional, clients but also general public	8/30/2017 12:08 AM
19	Limited opportunities for public realm design and Scotland as compared to London and potential opportunities for Habitat creation associated reintroduction of lynx and wolves as well as bears in the coming decades and Scotland	8/29/2017 11:03 PM
20	Stopping the anonymous sprawl that is creeping round our cities	8/29/2017 8:12 PM
21	small, flexible parliament & good potential for influencing it	8/29/2017 7:10 PM
22	Quality of built environment	8/29/2017 6:22 PM
23	Renewable energy resources which are not fully utilised	8/29/2017 6:00 PM
24	Maintaining the distinctiveness of Scotland's Landscapes by applying more strategic thinking	8/29/2017 5:11 PM
25	Our available land is small and we need to fit in a variety of different land uses in whilst trying to please everyone.	8/29/2017 4:28 PM
26	LVIA has soaked up a disproportionate proportion of professional resources. We need to find a way of streamlining the process and avoiding adding additional burdens.	8/29/2017 3:50 PM
27	Probably a lag in the adoption of sustainable management practices	8/29/2017 3:25 PM
28	level of investment in many areas such as infrastructure, public realm, etc scotland is much lower than SE england which reduces scope for landscape architects	8/29/2017 3:17 PM
29	Town planners not having sufficient landscape design knowledge when approving planning applications.	8/29/2017 2:53 PM
30	Challenge: achieving high quality design in practice	8/25/2017 1:31 PM

Landscape Institute Scotland

31	Generally reduced resources and standards of staff within local authorities, and within procurement positions, leading to poorly conceived briefs, less effective administration/ quality management and streamlined/ cost-biased/ less thoughtful procurement	8/25/2017 12:21 PM
32	Setting and promoting the highest standards of design in the landscape, at all scales	8/24/2017 10:27 AM
33	not enough budget allocation to attractive spaces	8/23/2017 9:30 AM
34	Lack of truly quality developers	8/22/2017 5:54 PM
35	Very insular employment market, many vacancies filled by word of mouth. This is both unhealthy, for the industry, and uncompetitive.	8/22/2017 4:47 PM
36	Working alongside other disciplines to provide landscape input	8/22/2017 4:45 PM
37	Sewers for Scotland	8/22/2017 2:37 PM
38	Maintain some of the most remote places in the UK	8/22/2017 2:32 PM
39	producing consistent guidance (across council areas)	8/22/2017 2:07 PM
40	Geography	8/22/2017 1:54 PM
41	Active Scottish business networks helping promote investment and regeneration	8/22/2017 1:47 PM
42	a lot of distracting attractive green promotion (CSGN) with little substance in the area of implementation	8/22/2017 1:26 PM
43	Etc	8/22/2017 1:17 PM
44	Conservationists appear to be pushing development and opportunities for development out of Scotland	8/22/2017 1:12 PM
45	c	8/22/2017 1:03 PM
46	an "out of sight out of mind" attitude to development in remote places	8/22/2017 11:53 AM
47	Not integrated sufficiently in planning departments& legislation	8/22/2017 11:40 AM
48	Position an dstatus of landscape architecture in some developments	8/22/2017 8:30 AM
49	Natural resources- power and food	8/22/2017 8:17 AM
50	Focus on local community - no push for competitions/private	8/21/2017 10:03 PM
51	Due to devolved government we do have an opportunity for relevant, specific guidance and policy	8/21/2017 5:39 PM
52	The Forestry Commission Scotland is one of our largest landowners giving state control of a huge area of landscape: this is a strength which has been eroded south of the border	8/21/2017 5:25 PM
#	RESPONSE 4	DATE
1	renewables	8/31/2017 7:00 AM
2	To understand the value of the landscape to the economy of Scotland	8/30/2017 6:25 PM
3	private sector employees expecting wide and distant travel	8/30/2017 5:20 PM
4	Climate change	8/30/2017 3:37 PM
5	Challenge : A pervasive attitude that is parochial, socially-conservative and lacks imagination	8/30/2017 3:06 PM
6	To promote excellent design solutions to promote Scotland moving forward.	8/30/2017 2:51 PM
7	Maintenance: much investment wasted by non-existent maintenance.	8/30/2017 2:34 PM
8	not having an autonomous LI in Scotland	8/30/2017 2:29 PM
9	In common with the rest of the UK, the urban fabric of our towns and cities also requires attention.	8/30/2017 10:24 AM
10	Prioritisation of key issues	8/30/2017 10:00 AM
11	to put forward the Landscape Architects approach to design to a wider audience	8/30/2017 9:12 AM
12	good locations for well designed renewables projects	8/30/2017 9:04 AM
13	Procurement - small and young offices don't have a chance to secure larger and big enough projects to survive	8/30/2017 12:08 AM

Landscape Institute Scotland

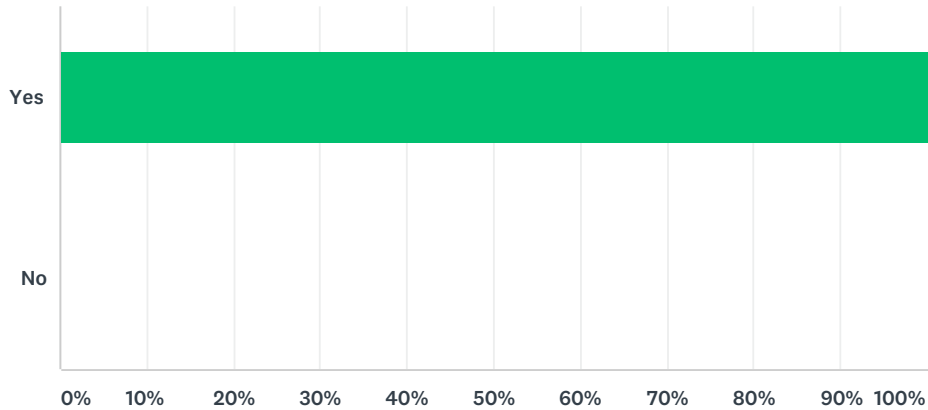

14	Opportunities for habitat creation in advance of planned reintroduction of lynx and wolf and Scotland	8/29/2017 11:03 PM
15	Increasing the landscape architect skill set in the public sector to put forward the case for good design, apply design skills at every opportunity and know how to commission great work when it is required	8/29/2017 8:12 PM
16	relatively small body of landscape architects	8/29/2017 7:10 PM
17	Biosecurity	8/29/2017 6:22 PM
18	Procurement - design and build contracts	8/29/2017 6:00 PM
19	Improving the quality of urban (especially housing) development and expansion	8/29/2017 5:11 PM
20	Decisions about changes to our townscape and landscape are made by people who often have a limited understanding of design or the issues concerned with development.	8/29/2017 4:28 PM
21	Some large rural landowners have a positive approach to the adoption natural heritage initiatives	8/29/2017 3:25 PM
22	I think there are opportunities to look to our scandinavian neighbours in terms of climate, rural landscapes, culture, political leanings are more akin to them than westminister	8/29/2017 3:17 PM
23	Challenge: lack of landscape professionals in local authorities	8/25/2017 1:31 PM
24	opportunities relate to the quality of Scotland's landscapes , especially outside the main settlements , but the challenge here relates to their protection and sensitive development faced with development pressures incl renewable energy, transmission and roads projects in scenic / wild landscapes.	8/25/2017 12:21 PM
25	utilitarian status quo desire	8/23/2017 9:30 AM
26	Maintaining and promoting standards in the profession	8/22/2017 4:45 PM
27	Low ambition	8/22/2017 2:37 PM
28	being underpaid with the expectation to do a bad and superficial greenwashing job on low quality developments with no intention for good landscapeing and not being able to uphold their own professional standards	8/22/2017 1:26 PM
29	Etc	8/22/2017 1:17 PM
30	Main opportunity is the cultural differences of local people in Scotland. Their needs and their voices are often ignored by well-meaning, but misplaced advice by professionals (including landscape architects)	8/22/2017 1:12 PM
31	d	8/22/2017 1:03 PM
32	d	8/22/2017 12:28 PM
33	Underdeveloped private sector	8/22/2017 8:17 AM
34	Strong distinct culture and appreciation of landscape	8/21/2017 10:03 PM
35	Different climatic conditions which help us relate northwards rather than south.	8/21/2017 5:25 PM
#	RESPONSE 5	DATE
1	tourism	8/31/2017 7:00 AM
2	Opportunity : The closeness and access to policymakers	8/30/2017 3:06 PM
3	Education: appreciation and nurturing of the environment.	8/30/2017 2:34 PM
4	Formulation of significant programs and plans	8/30/2017 10:00 AM
5	possibly poorer understanding of role of LAs	8/30/2017 9:04 AM
6	Planning & economic departments - Councils don't ensure that good quality designs are being approved or implemented	8/30/2017 12:08 AM
7	Lack of understanding of our area of expertise among the general public and fellow professionals remains one of the biggest challenges	8/29/2017 11:03 PM
8	Maintaining the fantastic diversity of Scotland's rural landscapes which are so highly valued - Scotland is smaller than we think	8/29/2017 8:12 PM

Landscape Institute Scotland

9	Construction projects which are not as sustainable	8/29/2017 6:00 PM
10	Decision makers are often hindered from promoting the best solutions to problems by bureaucracy.	8/29/2017 4:28 PM
11	Scotland's national identity and culture provides numerous opportunities for landscape and architectural design to contribute to this culture and distinctiveness , given a chance and support	8/25/2017 12:21 PM
12	aggressive VE contractors	8/23/2017 9:30 AM
13	Recognition for the Landscape profession	8/22/2017 4:45 PM
14	Not enough money in projects for landscape design	8/22/2017 2:37 PM
15	huge gap between theoretical guidance of good practice and the real political operating environment	8/22/2017 1:26 PM
16	Etc	8/22/2017 1:17 PM
17	e	8/22/2017 1:03 PM
18	Over reliance on public sector	8/22/2017 8:17 AM

Q2 Do you believe it important that we seek to play an important advocacy role to those who have influence on Scotland’s landscape, to promote the value of landscape design and the work of our members widely, particularly to MSP’s, the Scottish Government and the media?

19	Spatial organisation.	8/30/2017 10:24 AM
20	Interdisciplinary approach	8/30/2017 10:00 AM
21	Ability to take a holistic view of a site/ place	8/30/2017 9:12 AM

Landscape Institute Scotland

22	Good understanding of the role of other professions (but not reciprocated)	8/30/2017 9:04 AM
23	understanding of the intersection between the built and natural environment	8/30/2017 8:57 AM
24	Creating spaces that can accomodate different needs for a range of people & that are felxible	8/30/2017 12:08 AM
25	Delivering multifunctional design that fulfils the aesthetic, ecological and Climate Change resilience objectives	8/29/2017 11:03 PM
26	Landscape architects are spatial problem solvers - they should understand how to make spaces function well not just be attractive	8/29/2017 8:12 PM
27	holistic approach - joined up thinking	8/29/2017 7:10 PM
28	Bringing a wide variety of skills together	8/29/2017 6:22 PM
29	Cohesive approach which includes site context	8/29/2017 6:00 PM
30	Holistic thinking: (compare with too many architects who can still not see beyond buildings)	8/29/2017 5:11 PM
31	Understanding of how people use and appreciate places through our training in a variety of fields such as environmental psychology	8/29/2017 4:28 PM
32	Responsive Place design reflecting that fact that live materials are not so easily controlled as bricks and mortar!	8/29/2017 3:50 PM
33	strategic view	8/29/2017 3:25 PM
34	We take a holistic approach - considering human psychology, environment, habitat, time, geology, climate, function, form and rationalise competing demands resolved in design for the benefit of people and nature	8/29/2017 3:17 PM
35	holistic approach of looking ant streetscape as well as buildings and infrastructure and combining them all together	8/29/2017 2:53 PM
36	Unique knowledge of the landscape - passive recreation and active health.	8/27/2017 12:03 PM
37	Landscape includes context and surruondings, not just the immediate site.	8/25/2017 1:31 PM
38	Landscape architects provide a more holistic understanding and response to context in landscapes and townscares, than other professionals , enabling the creation of schemes that belong, are distinctive, useful and meaningful for their communities	8/25/2017 12:21 PM
39	Breadth of vision, encompassing understanding of the importance of design at all scales	8/24/2017 10:27 AM
40	visual and environmental and society	8/23/2017 12:17 PM
41	Aesthetics	8/23/2017 9:30 AM
42	Cohesive thinking across multi disciplines	8/22/2017 10:39 PM
43	better at working with others	8/22/2017 5:54 PM
44	We understand, and promote, the health benefits that outdoor space and the natural environment provide.	8/22/2017 4:47 PM
45	holistic view	8/22/2017 4:45 PM
46	We can look at the whole picture and bring together a multitude of professions rather than one single profession thinking they can do it all	8/22/2017 3:46 PM
47	Holistic thinking- good at understanding bigger picture	8/22/2017 2:37 PM
48	A broader appreciation than just flora and fauna	8/22/2017 2:32 PM
49	I'm not convinced they're unique necessarily but a good overview	8/22/2017 2:07 PM
50	understanding ecological process	8/22/2017 1:54 PM
51	We are in a unique position to be able to work at all scales from masterplanning to site detailing, providing an understanding and overview of a place that other professions would not have the skill to do.	8/22/2017 1:47 PM
52	Multi-disciplinary	8/22/2017 1:32 PM
53	a multi-disciplinary understanding of the built envirnoment that takes account of people, nature and cultural heritage	8/22/2017 1:26 PM

Landscape Institute Scotland

54	Concern specifically with the landscape	8/22/2017 1:17 PM
55	LAs have an overview that is invaluable in creating better environments	8/22/2017 1:12 PM
56	a	8/22/2017 1:03 PM
57	Planting skills	8/22/2017 11:40 AM
58	Undersanding of contribution of external spaces to the sustainability and health of developments	8/22/2017 8:30 AM
59	Placemaking	8/22/2017 8:17 AM
60	Holistic view of places	8/21/2017 11:26 PM
61	Added ecological value in human landscapes	8/21/2017 10:03 PM
62	LAs are intrinsically holistic in thier outlook with a view to the context, be it geographical or social, in which they design	8/21/2017 5:39 PM
63	strategic thinking/ thinking in context	8/21/2017 5:25 PM
#	RESPONSE 2	DATE
1	Good urban design skills	8/31/2017 10:01 AM
2	Landscape Plans	8/31/2017 7:00 AM
3	Holistic/ long term view and solutions	8/30/2017 9:38 PM
4	Whole Place approach and understanding character.	8/30/2017 6:25 PM
5	Consideration of time scale	8/30/2017 5:23 PM
6	we work with and across all other discipline in a way that others do not always consider	8/30/2017 5:20 PM
7	Awareness of landscape opportunities as well as threats.	8/30/2017 4:57 PM
8	Quality champions	8/30/2017 4:25 PM
9	Vernacular approaches	8/30/2017 3:37 PM
10	Long term design aspirations	8/30/2017 3:25 PM
11	SNH did a lot of work on health/ benefits of green space. University research done too. But not promoted & other "sexier" organisations have recently discovered what we all knew 5+ years ago. Now it's news.	8/30/2017 3:19 PM
12	Landscape professionals take a longer term view, more cognisant of future management and maturation of a place	8/30/2017 3:06 PM
13	Create low maintenance spaces for short term bio-diversity enhancements.	8/30/2017 2:51 PM
14	Wide understanding of competing demand on the environment.	8/30/2017 2:34 PM
15	locating buildings in the landscape	8/30/2017 2:29 PM
16	the value of cultural ecosystem services	8/30/2017 12:02 PM
17	We design place	8/30/2017 11:55 AM
18	Integrating diverse interests.	8/30/2017 10:24 AM
19	Ability to convert analysis into plans	8/30/2017 10:00 AM
20	Ability to synthesize information from other professionals to maximise potential of a place	8/30/2017 9:12 AM
21	Good knowledge of plants & planting design& specifications	8/30/2017 9:04 AM
22	understanding of the different scales at which decisions affect place making (regional, neighbourhood, site specific)	8/30/2017 8:57 AM
23	Working with seasons and time	8/30/2017 12:08 AM
24	Understanding of the multiple benefits that trees in particular bring to people living in urban environments including in terms of stress relief, mental health, urban heat island, air quality and visual amenity	8/29/2017 11:03 PM
25	The ability to understand how places evolve over time and take this into account	8/29/2017 8:12 PM

Landscape Institute Scotland

26	Design	8/29/2017 6:22 PM
27	Understand environmental factors	8/29/2017 6:00 PM
28	Multi disciplinary thinking and working	8/29/2017 5:11 PM
29	Understanding of the relationship between the appreciation of landscape/recreation within landscape and the value of place as a resource or to promote good health.	8/29/2017 4:28 PM
30	ability to masterplan	8/29/2017 3:25 PM
31	We work with living materials + 4D time	8/29/2017 3:17 PM
32	undertanding of local materials and how to make streetscape tie in with the built form	8/29/2017 2:53 PM
33	Knowledge of plants to aid the above	8/27/2017 12:03 PM
34	Range of scales of working.	8/25/2017 1:31 PM
35	landscape professionals consider 'space' and how it can add value to people's lives , not as an uneconomic entity but as an essential part of development and urban planning	8/25/2017 12:21 PM
36	This holistic approach is largely missing in other design professions, or is less central to their approach	8/24/2017 10:27 AM
37	Welcoming Areas	8/23/2017 9:30 AM
38	attention to detail by specialist	8/22/2017 4:45 PM
39	Integrated thinking- better at working across subject areas	8/22/2017 2:37 PM
40	Knowledge of how landscape is changing	8/22/2017 2:32 PM
41	landscape appraisal	8/22/2017 1:54 PM
42	All place making projects should be landscape led to provide a holistic approach which can only benefit other professions input to provide a coordinated and relevant output.	8/22/2017 1:47 PM
43	Understanding of the rural environment	8/22/2017 1:32 PM
44	being generalists and co-ordinators bringin together various objectives and resolve environmental and social conflicts rather than being narrowly focussed on one specialist field	8/22/2017 1:26 PM
45	How it is used	8/22/2017 1:17 PM
46	Good LAs can think strategically AND small scale both of which are required for this process	8/22/2017 1:12 PM
47	b	8/22/2017 1:03 PM
48	Understanding movement & use & demand for an area and putting that into design	8/22/2017 11:40 AM
49	sustainable approaches to clean air and microclimate n development sites	8/22/2017 8:30 AM
50	Leading a multi disciplinary team	8/22/2017 8:17 AM
51	Emphasis on the Public Realm	8/21/2017 11:26 PM
52	Understanding of flexible land use	8/21/2017 10:03 PM
53	We are used to working collaboratively across professions and organisations which is crucial to the implimentation of ScotGov's objectives	8/21/2017 5:39 PM
54	collaborative working	8/21/2017 5:25 PM
#	RESPONSE 3	DATE
1	Adopt a more holistic approach to design in the wider landscape	8/31/2017 10:01 AM
2	Micro and macro scale detailing that adds value to human experience of place, across diverse ages	8/30/2017 6:25 PM
3	Through good practice and obeysance of the Code of Standards of the LI, LAs have a responsibility to society and the environment.	8/30/2017 4:57 PM
4	Community champions	8/30/2017 4:25 PM
5	Community lead schemes	8/30/2017 3:37 PM
6	Understanding of landscape evolution	8/30/2017 3:25 PM

Landscape Institute Scotland

7	Landscape professionals may be less wedded to capital expenditure as solution, and more willing to apply 'soft solutions' that come from community, changing stewardship practices, or making minor physical interventions.	8/30/2017 3:06 PM
8	Encourage the development of longer term maintenance regimes for open spaces / housing sites.	8/30/2017 2:51 PM
9	Particular ability to understand qualities which make a landscape special	8/30/2017 2:34 PM
10	planting design	8/30/2017 2:29 PM
11	we design maintenance of place	8/30/2017 11:55 AM
12	Natural advocate of the public interest?	8/30/2017 10:24 AM
13	Distinctive overview capability	8/30/2017 10:00 AM
14	only profession with a holistic understanding of the outdoor environment	8/30/2017 9:04 AM
15	Understanding the relationship between the open spaces and build environment	8/30/2017 12:08 AM
16	Achieving positive change in the environment using entirely sustainable materials that will not leave a Legacy of waste for the future generations such as other Industries do	8/29/2017 11:03 PM
17	The ability to take into account the physical and contextual challenges of terrain, climate, soil and aspect, alongside social, environmental, economic and aesthetic objectives to create sustainable, robust design solutions	8/29/2017 8:12 PM
18	Engineering i.e Suds	8/29/2017 6:22 PM
19	Low key interventions with potential for big impact	8/29/2017 6:00 PM
20	By challenging convention and thinking out of the box	8/29/2017 5:11 PM
21	Landscape professionals have the best understanding of how buildings and landscapes can best relate to one another and their townscape or landscape context.	8/29/2017 4:28 PM
22	time depth to design	8/29/2017 3:25 PM
23	We are able to draw together a sum of parts to make a greater whole in terms of wider / multiple benefits	8/29/2017 3:17 PM
24	we have the ability to design the wider landscape - frame views, create features, use planting, landscape elements etc	8/29/2017 2:53 PM
25	Seeing things holistically and contextually - we are trained to do this. Architect's for instance only focus on the one aspect of the environment - the building. We see how it all fits together.	8/27/2017 12:03 PM
26	Fourth dimension is key; plants grow and landscapes change, so considering management is important from the start	8/25/2017 1:31 PM
27	planning and designing in 4 dimensions (including time) is a prerequisite for landscape professionals and set them apart from most other professions, considering how landscapes will change evolve and grow and how people can interface with those changes	8/25/2017 12:21 PM
28	Inviting people to spaces	8/23/2017 9:30 AM
29	ecological approach	8/22/2017 4:45 PM
30	Able to make things grow- should be experts in plants	8/22/2017 2:37 PM
31	landscape / townscape context	8/22/2017 1:54 PM
32	before disillusion this profession often attracts individuals with high degree of professional ethics and and a focus on a good result rather than personal profit	8/22/2017 1:26 PM
33	AND what it looks like	8/22/2017 1:17 PM
34	c	8/22/2017 1:03 PM
35	d	8/22/2017 12:28 PM
36	Understanding good design for play areas	8/22/2017 11:40 AM
37	inovation in respect of landscaping in interior of buildings and roof gardens	8/22/2017 8:30 AM
38	Seeing beyond specialisms	8/22/2017 8:17 AM

Landscape Institute Scotland

39	Greater Technical Skill over a broad range.	8/21/2017 11:26 PM
40	How to design so people take ownership	8/21/2017 10:03 PM
41	skills and understanding of the environment	8/21/2017 5:25 PM
#	RESPONSE 4	DATE
1	Physical and mental health benefits of interaction with quality landscapes	8/30/2017 6:25 PM
2	Ability to consider the long term gains, goals and objectives	8/30/2017 4:25 PM
3	Heritage, societal and cultural references	8/30/2017 3:37 PM
4	Landscape professionals are expert in analysing the character and qualities of a place, which better relates design to context.	8/30/2017 3:06 PM
5	Provide alternative advice to encourage excellent design in the national parks.	8/30/2017 2:51 PM
6	Practical ability to find solutions at ground level	8/30/2017 2:34 PM
7	understanding the science of planting	8/30/2017 2:29 PM
8	we encourage active travel	8/30/2017 11:55 AM
9	Unique perception of the interrelationships between science, design and technological parameters	8/30/2017 10:00 AM
10	People/ the users are the main focus behind the design	8/30/2017 12:08 AM
11	Understanding preservation of unique landscape character areas which are part of our heritage and which are constantly eroded	8/29/2017 11:03 PM
12	To work with light and sound, form and void and balance apparent permanence with the seasonality and movement of the natural world.	8/29/2017 8:12 PM
13	Understanding Landscape i.e geology, soils, water, trees and flora	8/29/2017 6:22 PM
14	They are able to make beautiful and useful places where people want to be.	8/29/2017 4:28 PM
15	landscape lead projects are successful as the attention is on the wider picture rather than an individual structure therefore the scheme sits more comfortably in the landscape	8/29/2017 2:53 PM
16	All surveys demonstrate the importance of greenspaces and public realm in people's lives and choices about where and how they live. This is often a priority above the buildings although often not recognised by planners, architects and developers	8/25/2017 12:21 PM
17	multi-disciplinary approach	8/22/2017 4:45 PM
18	Collaborative	8/22/2017 2:37 PM
19	active travel	8/22/2017 1:54 PM
20	d	8/22/2017 1:03 PM
21	Environmental & Sustainable knowledge & skills	8/22/2017 11:40 AM
22	Breadth of landscape architects knowledge of environmental issues	8/22/2017 8:30 AM
23	Green economy	8/22/2017 8:17 AM
24	Ecological and Design Expertise	8/21/2017 11:26 PM
#	RESPONSE 5	DATE
1	Landscape includes seascape /riverscape etc	8/30/2017 6:25 PM
2	Complete understanding in the benefits of greenspace to well being, health, engaged communities, place appeal and ultimately desirability of neighbourhoods	8/30/2017 4:25 PM
3	No homogenous faceless schemes	8/30/2017 3:37 PM
4	Landscape professionals regard green infrastructure as an opportunity for integrated design of better, more functional places. This differs from Engineers, who mainly perceive infrastructure as a technical challenge to solve, divorced from social, aesthetic and natural context.	8/30/2017 3:06 PM
5	Appreciation of all factors: ecological , historical etc	8/30/2017 2:34 PM
6	the 5 th dimension of time	8/30/2017 2:29 PM

Landscape Institute Scotland

7	we combine the therapy of beauty with the practicality of need	8/30/2017 11:55 AM
8	Capability to convert EIAs into Master Plans	8/30/2017 10:00 AM
9	Bioengineering techniques and other creative Solutions without resorting to unsustainable methods and materials	8/29/2017 11:03 PM
10	Holistic understanding of build environment	8/29/2017 6:22 PM
11	Landscape professionals are best placed to address and integrate demands from climate change and the health agendas and to demonstrate the potential multi-use of landscapes and public realm / placemaking	8/25/2017 12:21 PM
12	combining disciplines	8/22/2017 4:45 PM
13	e	8/22/2017 1:03 PM
14	Skills, from fund raising to contracts.	8/21/2017 11:26 PM

Q6 Could you name 3 projects, in Scotland, the UK or worldwide, that best encapsulate the value of our profession and the skillset we bring to society? For each, please provide a sentence on why.

Answered: 51 Skipped: 24

ANSWER CHOICES	RESPONSES	
Project 1	98.04%	50
Project 2	82.35%	42
Project 3	58.82%	30

#	PROJECT 1	DATE
1	Scottish Parliament - created a unique setting in a very sensitive location for the parliament building.	8/31/2017 10:01 AM
2	Hamburg waterfront - pocket parks being developed within the docklands redevelopment	8/31/2017 7:00 AM
3	Olympic park- the integration of buildings into a renewed landscape	8/30/2017 9:38 PM
4	Helix/Kelpies- connecting communities; creating value out of vacant and derelict land; good detailing ; joy and fun	8/30/2017 6:25 PM
5	Cambourne Green Infrastructure- fully integrated Blue green space with flood protection for housing	8/30/2017 5:20 PM
6	JFK Memorial, Runnymede. Simple brief, beautifully executed.	8/30/2017 4:57 PM
7	The Helix, Falkirk: Major transformational project with community at its core. This fantastic project has not only provided the much needed community resource, it has also created a real visitor destination with wider appeal.	8/30/2017 4:25 PM
8	Hilton Rosyth - Scotlands Garden City - natural landscape focus	8/30/2017 3:37 PM
9	The Goods Line, Sydney	8/30/2017 3:25 PM
10	Kapiti Expressway in North Island, NZ. Takes account of possible tsunamis, riverside paths, plus Maori cultural heritage, with an ES that has articulated lorries on the wirelines as well as the photomontages.	8/30/2017 3:19 PM
11	Newhall, Harlow. A new housing development that is diverse, contextual and full of delight for residents	8/30/2017 3:06 PM
12	The Kelpies at the Helix, Falkirk- Impressive sculptures and recreational spaces for tourist and local interest.	8/30/2017 2:51 PM
13	Whitelee Wind Farm	8/30/2017 2:31 PM
14	Cairngorms National Park - Photo post project	8/30/2017 12:02 PM
15	Neilston Charter and Going Place Charrette.Long vision Community planning translated into local authority SPG to local plan	8/30/2017 11:55 AM
16	Silva Crowe's development of the design guidance for forestry.	8/30/2017 10:24 AM
17	Megget Reservoir in first principles related to integrating a major engineering project	8/30/2017 10:00 AM
18	The Highline, New York. The concept and implementation to a very high standard of an idea to reuse a derelict railway for the benefit of local residents, visitors and the local economy.	8/30/2017 9:12 AM
19	The Highline - Connecting communities and repurposing former industrial areas to make stronger more connected communities.	8/30/2017 8:57 AM
20	Katwijk, The Netherland (OKRA)- creating a landscape that acts as storm defence, natural landscape and public space	8/30/2017 12:08 AM

Landscape Institute Scotland

21	A9 Dualling Programme, Scotland - delivering the necessary infrastructure while respecting the landscape of the Cairngorms National Park and National Scenic Areas through sensitive landscape and ecological mitigation design on a vast scale	8/29/2017 11:03 PM
22	Lochore Meadows Country Park. A great example of fabulous restoration of an open cast mining site in Fife near Kelty	8/29/2017 8:12 PM
23	Living Breakwaters, Staten Island by Scape - addresses climate in change holistically	8/29/2017 6:22 PM
24	Making Space in Dalston - a series of site specific interventions which improve streetscape	8/29/2017 6:00 PM
25	Eden project: for concept, vision, design and plant knowledge as representative of holistic design skill	8/29/2017 5:11 PM
26	The Helix Park, Falkirk	8/29/2017 4:28 PM
27	Olympic Park: Creation of diverse landscape which attracts numerous visits, blending horticultural interest with 'ecosystem services'	8/29/2017 3:25 PM
28	Helix park is a great example of a proactive local government, resolving the problem of preventing coalescence between falkirk and grangemouth, taking a positive approach to land use beside and beneath a busy road corridor and pylons and turning it into a really successful regional park, tourist attraction with green infrastructure, connectivity and a rich habitat.	8/29/2017 3:17 PM
29	Kinross streetscape - landscape lead, multidiscipline team, use of natural materials which are sympathetic to the built environment and gives sense of place whilst in keeping with the historic town centre. sensitive colour palette was a key issue.	8/29/2017 2:53 PM
30	Eden Project, Cornwall: demonstrates how industrial dereliction can be reversed and made into something exciting, intelligent, beautiful and sustainable	8/25/2017 12:21 PM
31	Holyrood Campus	8/23/2017 9:30 AM
32	Mackenzie falls trail, grampians, Australia - minimal design intervention, durable outcome, visually and physically engaging	8/22/2017 10:39 PM
33	Queen Elizabeth Park, London - provided an environment, rich in biodiversity, that transformed a brownfield site, and provided an environment that offered countless opportunities for exploring health, fitness and joy.	8/22/2017 4:47 PM
34	Regional Performance Centre for Sports-multi disciplinary approach involving specialist desingers and comunity consultation to acheive desired site specific outcome	8/22/2017 4:45 PM
35	The Kelpies - landmark attraction which appeals to a wide population and draws people outside	8/22/2017 3:46 PM
36	Granton West park- as per LI case study	8/22/2017 2:37 PM
37	Queen Elizabeth Park. A stunning example of what we can do.	8/22/2017 2:32 PM
38	Central Park, New York, a historic green oasis in one of the world's most densely populated cities	8/22/2017 1:54 PM
39	Olympic Park - the value of the landscape architecture was recognised and clearly led the success of the project	8/22/2017 1:47 PM
40	High Line	8/22/2017 1:39 PM
41	Pavillion Princes street gardens, with emphasis on the landscape rather than the building joing with its historic environment	8/22/2017 1:32 PM
42	Rottenrow Gardens in Glasgow - a very well designed public space capturing history and benefits of the site by GrossMax built on site of previous maternity hospital	8/22/2017 1:26 PM
43	The many landscape and visual impact studies	8/22/2017 1:17 PM
44	Green Belt development at Broomhills south Edinburgh - large scale housing with school and community/retail centres was landsacpe led with focus on topography and landscape fit.	8/22/2017 1:12 PM
45	a	8/22/2017 1:03 PM
46	Buchanan street glasgow. Simple, robust design that has driven the success of the area as a shopping destination. Meets the needs of the businesses& users of the area.	8/22/2017 11:40 AM
47	Nethererton surface mine. Consented working scheme and restoration exemplifies a creative and sustainable response to this development type	8/22/2017 8:30 AM

Landscape Institute Scotland

48	Olympic park- urban regeneration	8/22/2017 8:17 AM
49	Landscape mapping and visual impact assessment research	8/21/2017 11:26 PM
50	Helix, Falkirk - monumental, iconic but with the creation of greenspace at its heart	8/21/2017 5:39 PM
#	PROJECT 2	DATE
1	Streetscape of Royal Mile, Edinburgh - demonstrates an understanding of natural materials.	8/31/2017 10:01 AM
2	Reichstag, Berlin, well maintained civic spaces/ trees, connecting city centre features	8/31/2017 7:00 AM
3	Central scotland green network- re-establishing landscape on a significant scale	8/30/2017 9:38 PM
4	Tree and Design Action Group -proper consideration of the root volume allowance necessary for tree development	8/30/2017 5:20 PM
5	V&A at Dundee. Revitalising Dundee waterfront and linking the city again to the river in a dynamic design which incorporates outside performance spaces and amenity landscapes.	8/30/2017 4:57 PM
6	Strathclyde Park - sustainable landscape	8/30/2017 3:37 PM
7	Novartis, Switzerland	8/30/2017 3:25 PM
8	Sorry but for projects in Scotland such as the new Forth Bridge, I don't know the extent to which Landscape architects were involved- this is hidden, the story isn't told. And they're part of a team, where collective cross-party decisions are made.	8/30/2017 3:19 PM
9	Landschaftpark, Duisburg-Nord. The creative re-use of a derelict industrial landscape, that manages to preserve the spirit of the past whilst being incredibly optimistic and alive in the present.	8/30/2017 3:06 PM
10	Look Out on Loch Voil- Contemporary pavilion reflecting the beauty of the Trossachs	8/30/2017 2:51 PM
11	Falkirk Wheel and Kelpies. Leisure, pleasure , engineering	8/30/2017 11:55 AM
12	Landscape setting for Scottish Parliament.	8/30/2017 10:24 AM
13	Flotta Oil Terminal as an international exemplar in collaboration and environmental performance across all parameters including marine and terrestrial ecosystems, fisheries, landscape enhancement through design mitigation	8/30/2017 10:00 AM
14	The Queen Elizabeth Olympic Park, 2012 Olympics. The ability to design and develop a highly attractive and rich river valley environment for the use of local residents and visitors and wildlife.	8/30/2017 9:12 AM
15	Toronto's Waterfront - A landscape led regeneration effort. By providing the public spaces for this neighbourhood first, the essential community meeting / gathering places are in place when people move in.	8/30/2017 8:57 AM
16	Gleisdreieck, Berlin (Atelier Loidl) - urban woodland and park on former train tracks/ junction	8/30/2017 12:08 AM
17	Freshkills Park, USA - transforming the world's largest landfill into a new flagship park for New York City.	8/29/2017 11:03 PM
18	Dundee Technology Park. So many cities now fail in terms of the sprawl of anonymous buildings on their edge - the design of this Park has proved resilient. And now the V and A ! Go Dundee!	8/29/2017 8:12 PM
19	Any pollinator project i.e Greeninfrastructure Plan for Pollinators, TACP - because LA is the profession which can have a significant impact on improving the situation/saving the planet	8/29/2017 6:22 PM
20	The High Line, New York	8/29/2017 6:00 PM
21	GLVIA: for contributing to improved informed decision making	8/29/2017 5:11 PM
